**Data Base:** Advanced: SQLServer, Oracle SQL; Intermediate: Postgres SQL; Basic: Django, Apache, MongoDB.

**Agile:** Scrum, Kanban and Lean Software Development

**Languages:** Fluent: English; Native: Spanish; Intermediate: Portuguese.

Other Courses and Certifications.

## Professional Experience

---

**Grant Thornton – Innovation Advisory Supervisor – 2023**

- Spearhead innovation initiatives, identifying opportunities for process optimization and technological advancements.
- Lead cross-functional teams to conceptualize, develop, and implement innovative solutions, resulting in enhanced productivity and cost savings.
- Collaborate with stakeholders to understand business needs and provide strategic recommendations on RPA, IT audit, and cyber security implementations.
- Assess potential risks and opportunities associated with emerging technologies and present risk mitigation strategies to senior management.
- Monitor industry trends and best practices in innovation and technology to ensure Grant Thornton remains at the forefront of industry developments.

**Microtech – C# Developer – 2022**

- Played a pivotal role in ensuring top-notch quality assurance during the development of a new core CRM for a Real Estate company. Led the QA efforts in middleware development, focusing on creating and connecting APIs, while also providing valuable support in customer service. Employed .Net Core, C#, SQL Integration Services, and VB Script in a Database First model, ensuring impeccable functionality and reliability of the system.

**Nestle Business Services, Business Solution Analyst —2021 – 2022**

As a leader developer for automation projects, significantly enhanced quality assurance by improving FTE savings per year. Automated repetitive business tasks through Blue Prism, SAP Script, SQL, .NET, HTML, and VBScript, liberating employees to focus on more intricate responsibilities. This increased functional efficiency, delivering heightened productivity to the team.

As the Instructor for the Apprentice Program, assumed the role of lead teacher for a group of 7 interns, diligently overseeing and supervising their projects. Provided dedicated support to enhance their performance and skill development, reinforcing a culture of continuous improvement.

As a Scrum Master in Automation Projects, ensured stringent adherence to the scrum framework, fostering seamless communication and collaboration within the team. Facilitated scrum practices, optimizing project execution, and amplifying the focus on quality assurance throughout the development process.

**EY, RPA Developer — 2017 – 2021**

- Successfully developed automation projects, helping in the FTE savings per year for our clients, as a lead Developer for Automation Projects, providing process analysis and automated solutions for clients, reducing the time spent in manual labors and/or providing new solutions for obsolete process, also developing support software. Mainly using **Visual .NET, HTML, CSS, JavaScript, JQuery, Azure APIS, VBScript, Visual Basic, C#, Blue Prism, Power Shell, SQL, Python and R**
- Contributed in Data Analysis Projects, doing and helping in Data Analysis projects, providing Statistics, Visualizations, and Projections. Using **Power BI, Tibco Spotfire, Tableau, R, Python, Computer Vision, Tesseract**

**EDYDSI, .NET Developer —2016 – 2017**

- Achieve the company goals, developing, actualizing and maintaining the company products (Accounting and Billing Software), adding new reports and modules to the system with **Visual .Net, ASP .Net, SQLServer, JavaScript,HTML, JQuery, XML, Crystal Reports, VB Script and DevExpress.**
